**Subject: R. J. Corman Railpower Awarded Additional Locomotive Contract from Montreal Port Authority**

R. J. Corman Railpower is pleased to announce the award of two additional 2,000hp RP20BD GenSet locomotives for the Montreal Port Authority (MPA). Following the recent delivery of the MPA's first RP20BD in October 2010, this unit is scheduled to deliver sometime in the 1st Quarter of 2012. Featuring a new Cab design, this unit will display Railpower's first short-nosed Cab as part of MPA's requested configuration.

"R. J. Corman Railpower appreciates the enthusiasm and support we continually receive from our Canadian Partner. We are excited to take part in the MPA's efforts to positively impact its environmental footprint while increasing performance and productivity," stated R. J. Corman Railpower VP, Dave Malay.

"By purchasing these two new locomotives, the Montreal Port Authority confirms its commitment to make the Port of Montreal a benchmark of the best environmental practices in North America's marine industry," said Sylvie Vachon, President and Chief Executive Officer of the Montreal Port Authority. Ms. Vachon took the opportunity to point out that the Port's dockside railway system gives the Port a decisive competitive edge. "Our intermodal system, which makes it possible to form trains loaded with containers right beside ships, is the envy of our competitors, who named it the Montreal Model," stated Ms. Vachon.

This GenSet locomotive is part of an overall strategy to eventually replace the MPA's entire fleet with clean energy technology while maintaining compatibility with the MPA's existing slugs. This RP20BD features the industry's most simple mother-slug interface, enabling it to operate conventionally or in conjunction with slugs.

R. J. Corman Railroad Group is a privately owned holding company for the following key operations:  
Shortline Railroads • Switching Operations • Rail Construction • Track Material Distribution  
Warehousing • Aviation Services • Equipment Rental • Deraiment Services • Railroad Emergency Response  
My Old Kentucky Dinner Train • RailPower
