

## **NEWS & UPDATES**

---

December 21, 2010

Mr. Corman had an accident on his snowmobile at his house that resulted in a broken collarbone. He is doing fine, but will be in a sling for the next three weeks. Cancer is still in remission and the broken collarbone is not a result of multiple myeloma. He would like to thank the wonderful staff at the R. J. Corman Ambulatory Care Center for all their assistance.
